**Q: Why are you running for RTM?**

I want a meaningful role in crafting the decisions that affect my family and my neighbors. The RTM is the closest thing to real democracy that exists today. Residents of all economic strata, ages, gender and political persuasion come together to debate important financial and planning issues in an intelligent and respectful manner. The RTM will be making important decisions in the next few years that will have long term implications for the services offered by the Town and the work force the Town can attract. For more information on the RTM, check out these videos: <https://vimeo.com/180110071> <https://www.youtube.com/watch?v=zEmaE8bnfno>

**Q: What are the three most important issues facing Greenwich voters today?**

Greenwich is a well run Town. It is unique because its residents have supported strong public schools and public safety while conservatively managing its financial affairs. But it faces pressure today from several sources: Irresponsible fiscal policy in state government and state laws that threaten local control of decisions on education, zoning, and labor agreements. Greenwich must remain affordable to families and seniors. The Town's state and local representatives must work to free Greenwich from the yoke of state government so that the Town continues to be the envy of the state and the premier place to live in Connecticut.

**Q: What are the three most important issues facing Greenwich voters today?**

Important issues in Greenwich continue to be those concerning health, safety and quality of life. I support the Greenwich Department of Health, police, fire and emergency medical services, as well as the Griffith Harris Golf Course.

**Q: Why are you running for RTM?**

As a life-long resident of Greenwich I have always been interested in civic affairs. I believe it is important to have a role in the decision-making process of the town. I have tried to represent the view-points of District members by always taking the time to talk to people to hear their thoughts on important issues. One of the great things about being an RTM representative is that it is a non-partisan organization that works well together to solve issues facing our community.

**Q: What are the three most important issues facing Greenwich voters today?**

Due to state's financial crisis and loss of funding the RTM must make tough choices to keep taxes low while preserving the quality of life. A Greenwich education is one of the main reasons people choose to live here and we must continue to improve our excellent school system. The Eastern Greenwich Civic Center needs to be rebuilt for not only for our part of town but all of Greenwich. I believe it should include additional & improved playing fields, more meeting rooms, rental spaces and a cafe. A new facility should also be able to show a profit.

**Q: Why are you running for RTM?**

I believe in the importance of the RTM as the legislative branch of Greenwich Government and I enjoy the responsibility of representing all residents on the wide variety of issues that come before us. Outstanding governance requires fiscal responsibility, transparency, and balancing and maintaining community values that include:

- Providing outstanding schools
- Investing in and maintaining our infrastructure, parks, fields, and buildings
- Being good stewards of the land and recognizing potential threats
- Promoting smart economic development
- Preserving town and neighborhood character

Being a member of the RTM is a privilege and responsibility that I take seriously.

1. Promoting economic growth, educational excellence, and housing development while preserving our neighborhoods and community character

Lived in Moscow, USSR before moving back to the US 1979. Moved to Greenwich 1983. Became an American citizen 1998. Career in Business. Semi-retired.

**Q: Why are you running for RTM?**

Been actively involved in the development of our community since first moving here - mostly Planning and Zoning. In 1986 founded the Committee To Preserve Old Greenwich to prevent further development of Sound View Farms Office Park in Stamford across the border from Old Greenwich. Still working to preserve the true character of Old Greenwich but also making sure we have the financial and technological resources to do so. Special interest still planning and zoning, Eastern Civic Center and other public facilities that have been left behind over the years such as schools and other sport/recreational facilities.

**Q: What are the three most important issues facing Greenwich voters today?**

1. Renovation and upgrading of our schools and athletic fields. They are all very old/obsolete and not been well maintained over the years.
2. Investment in other infrastructure projects in Town all the way from sewer system to sport and recreation facilities such as the Dorothy Hamill Skating Rink, the Stadium at Greenwich High School as well as the rebuilding of the Eastern Civic Center.
- 3 The financing of all the above projects and the increasing pressure on cost to run the Town Government specifically healthcare

**Krueger, Leander**

19 Meadow Place

**Occupation:** Architect

**Biography:** Growing up across the sound in Oyster Bay, I was a diligent student and active volunteer. After high school I attended Yale (BA) and U.Penn (M.Arch). Since 2014, I've lived OG with my husband and three children. I practice architecture part-time and am a new member of the Greenwich ARC.

**Q: Why are you running for RTM?**

I've enjoyed the last two years as a member of the RTM and hope to continue my service. My architecture education included city planning exercises and investigations into why towns thrive or decline. As an alternate delegate on the Land Use Committee I have been able to put this experience to good use. I love Greenwich and want to be a part of setting a fiscally responsible course for the town's future. I am fortunate to live in a town with fabulous people, services and schools and I want to ensure that Greenwich stays this way for years to come.

**Q: What are the three most important issues facing Greenwich voters today?**

Three important issues facing Greenwich today are: 1) Fiscal stability- making our own sound financial decisions so that we limit the effect of Hartford's sometimes poor economic decisions; 2) Maintaining quality infrastructure - sensibly investing in town infrastructure upgrades including road works, drainage projects, city park improvements, technology updates and school renovations; and 3) Ensuring premium quality of life for all residents - maintaining superior municipal services and addressing issues such as intelligent housing development and traffic and parking challenges.

**Current RTM committee assignment:** Alternate, Land Use Committee

I led the Pedestrian Safety Committee for 21 years, advocating for new and safer sidewalks and pedestrian crossings.

**Q: Why are you running for RTM?**

I have always valued what Greenwich has provided for our family. I believe all of us can add to that legacy by serving on the RTM, as I have done. I believe my dedicated work to improve and protect Greenwich has added to the quality of life here. It has always been a very gratifying personal experience. The gratification I enjoy continues to this day. My years of experience has definitely benefited and will continue to benefit our town.

**Q: What are the three most important issues facing Greenwich voters today?**

1. To continue efforts to make public safety a priority.
2. To protect Greenwich from excessive new construction and any other changes that threaten the character of our town.
3. To continue to hold spending to an affordable level and keep tax rates low without ignoring those things that require funding to maintain and improve services for our residents.

45 Year resident of District 6

**Q: Why are you running for RTM?**

When I first ran for the RTM in 2015, I wanted to give back to the community that gave so much to my family. In 2015 I was elected to the RTM for District 6 and spent 2 years on the Appointments Committee. It was an amazing learning experience about how the committees of the RTM work with Town government and various agencies and departments. I feel my previous experience is important to not only District 6 but also to the RTM.

**Q: What are the three most important issues facing Greenwich voters today?**

**Fiscal Responsibility** With the current economic conditions within the State it is prudent to review our current funding process. We should strive to try and control the tax mil rate to reflect the CPI.

**Education** Our 3 children attended Greenwich public schools and 6 of our 7 grandchildren are currently enrolled in Greenwich. One child is a teacher in the Greenwich system. I know the importance and effect of a good education.

**Housing** We should all be concerned about the availability of affordable housing but there is a need to balance that against the impact of our quality of life.

**McGuigan, Janet S.**  
24 Sunset Road  
Old Greenwich 06870

**Occupation:** Community Volunteer and House Spouse

**Biography:** Janet earned degrees in civil engineering and economics from Cornell and public policy from Harvard, and worked as an environmental policy analyst and mediator in

Washington, DC, and Brussels, Belgium. In Greenwich she has served on the boards of the PTA Council, League of Women Voters, and Community Centers, Inc.

**Q: Why are you running for RTM?**

The parent of a college freshman and high school junior, Janet views the RTM as the next forum in which to continue her community service. An active volunteer since moving to Greenwich, she has gained much experience and insight into the workings of the Town, and would be honored to apply her knowledge and skill set as an RTM member. Greenwich has changed since her husband was born here, but not the sense of place it instills. Janet would like to contribute to the positive community spirit she has felt since moving here.

**Q: What are the three most important issues facing Greenwich voters today?**

Since moving to Greenwich in 2006, and Old Greenwich in 2013, Janet has become very informed about the state of Greenwich Public Schools through her wide-ranging volunteer work. She would like to support the high quality education that so greatly benefits the Greenwich community. Having recently cared for elderly parents, Janet is sensitive to the need to allow community members to age in place. And having worked as a policy professional, Janet values the role thoughtful communication plays in overcoming decision making challenges. Put more pithily: today's issues are caring for our youth and elders, civilly, with understanding and purpose.

**Q: Why are you running for RTM?**

Government Service and Good Government are essential to a Democracy. Local good government is key to the success of Greenwich. I appreciate the insights local service provides me in my roll in Hartford.

**Q: What are the three most important issues facing Greenwich voters today?**

- 1 Making Government more responsive to the citizens

the RTM, I am a real estate agent and I teach after-school art at the Old Greenwich Riverside Community Center.

**Q: Why are you running for RTM?**

I am running for RTM because I'd like to continue serving the community. My biggest concerns are education and the environment.

**Q: What are the three most important issues facing Greenwich voters today?**

An important issue facing Greenwich voters is the current state of buildings and infrastructure in town, (the Eastern Greenwich Civic Center, Dorothy Hamill Rink, Schools). Many of these structures have not been maintained or improved over the years.

Another important issue is development in town. The main question to ask ourselves: Do we want to look more urban or do we want to continue having green spaces and historical buildings?

Lastly, an important issue is oversight on the current capital projects planned and budgeted for the town. There needs to be a committee to make sure these projects are coordinated.

**Q: Why are you running for RTM?**

I am proud to call OG home my husband and I were drawn here 39 years ago by the small-town feeling and open spaces. We enjoy Binney Park and Greenwich Point and the many wonderful community activities. My commitment to community service prompted my run for the RTM. I wish to use my knowledge and experiences to work collaboratively to improve the quality of life in OG and the larger Greenwich community. My goal is to engage with others to develop innovative ways to address current challenges and implement solutions based on facts and sound fiscal policy.

**Q: What are the three most important issues facing Greenwich voters today?**

1. Improving the quality of life by protecting open spaces, enhancing cultural and recreational activities, regulating housing density and supporting high-quality schools.
2. Setting priorities for capitol spending, while keeping taxes low.
3. Ensuring appropriate services and security for all our citizens with a special emphasis on our senior citizens.

**Q: Why are you running for RTM?**

I love this Town. I am proud to say that during my first term we successfully passed the plastic bag ban ordinance and the anti-fracking transport ordinance. I want to contribute more in terms of updating our schools, supporting our teachers and Town employees who work to make Greenwich a town we want to live in. I want to work to improve safety of our residents, including traffic calming and fire safety for all parts of Town. The RTM plays a vital role in the Town budget which supports these efforts.

**Q: What are the three most important issues facing Greenwich voters today?**

1. Our schools
2. Our environment
3. Our economy

**Quake, Victoria B.**

Congregational Church, Greenwich Youth Lacrosse, the Junior League of Greenwich and the Greenwich RTM.

**Q: Why are you running for RTM?**

I am running for the RTM for my third term as I believe getting involved is a civic duty and giving back to the community is our responsibility. I am a parent of Middle School children and keenly interested in the investment in and protection of our environment, including our town parks, beaches, harbor and fields. I want to support public education and the necessary capital spending for school and town infrastructure.

**Q: What are the three most important issues facing Greenwich voters today?**

An important issue facing Greenwich voters today is the state of Connecticut budget gap and how it affects our town budget. Maintaining our desirable low taxes while providing excellent town services and helping local businesses will be important to preserving real estate value and ensuring that Greenwich remains a desirable place to live and work for generations to come.

**Current RTM committee assignment:** District 6 Secretary; Parks and Recreation Delegate

Georgetown MBA, David does volunteer work and provides free legal advice to low-income taxpayers with consumer debt issues.

**Q: Why are you running for RTM?**

I consider it an obligation as a concerned citizen to find solutions to problems that affect residents of my district as well as the Town as a whole. I am inspired by collaborating with other RTM members and am guided by my personal belief that working with integrity, openness and pragmatism is the most productive approach. I believe Greenwich has much to offer, but it also needs governance and oversight that is balanced and responsive. I seek the opportunity to tackle the challenges facing Greenwich and to continue as an effective RTM member representing District 6.

**Q: What are the three most important issues facing Greenwich voters today?**

Renovate/rebuild our old schools with proper project oversight, and ensure our schools are designed to accommodate the changing way our children learn. Lack of well-maintained real grass sports fields. Rather than installing artificial turf at our middle schools, for which NO long-term health studies on children exist, we need to invest in the future and protect the welfare of our children and the environment by purchasing land and building properly designed grass fields. Carefully consider the value to the Town of our prized assets, such as the office buildings at Greenwich Station and Nathaniel Witherell, before selling them off.

Award winning tv programs to video games and web experiences. I've lived in OG since 2001 and am ridiculously happily married.

**Q: Why are you running for RTM?**

I believe in the importance of the RTM as the legislative branch of Greenwich Government and I am eager to represent my neighbors as we confront the wide array of issues confronting the town. I don't enjoy the mud slinging that's happening between the far right vs the far left - I wish it wasn't so prevelant here in OG. I am moderate, engaged and intelligent.

**Q: What are the three most important issues facing Greenwich voters today?**

1. We need to promote economic growth and need to change our relationship with debt because it forces short sighted decision making that compromises the town's ability to do long term planning and intelligent financing.
2. Meeting potential \$750M capital needs required by town wide educational facilities and ADA requirements.
3. Researching risks of climate change and working to protect its effects on our safety and property values.

**Occupation:** Clinical Social Worker

**Biography:** 17 yr. resident of OG. Married with two teenage boys who attend(ed) Greenwich Public Schools, K-12. Long time volunteer at Neighbor to Neighbor, Greenwich Scouting and

PTA. Member of the OG Garden Club and former OG Association Board Member. Licensed clinical social worker with over 25 years of professional experience.

**Q: Why are you running for RTM?**

I believe people should give back to their community. As a social worker and current Chair of the RTM's Health and Human Services Committee and the Community Development Block Grant Advisory Committee, I am very committed to ensuring that our most at-risk and elderly residents have the services they need to thrive in our community. I have invested in building strong non-partisan working relationships within the RTM, Board of Selectmen, and BET that allow me to bring people together to drive solutions to issues that matter to OG residents and the broader Greenwich community.

**Q: What are the three most important issues facing Greenwich voters today?**

1. Ensuring that Greenwich remains a desirable place to live for both the young and the old; we should strive to not only have an excellent public school system, but also comprehensive resources for our older residents so they may age in place.
2. Responsibly addressing and prioritizing our infrastructure needs; balancing the need to invest while also identifying a cost conscious way to pay for the improvements.
3. Specific to OG, I am concerned about flooding, traffic congestion, over-development, and how best to utilize the space at Eastern Greenwich Civic Center.

**Current RTM committee assignment:** Chair, Health and Human Services Committee; Chair, Community Block Grant Advisory Committee

**Young, Victoria Martin**

**Biography:** Married mother of two children who attend/ed Greenwich public schools. Volunteer for Greenwich United Way and Impact Fairfield County. Current board member of

Community Centers of Greenwich. BA from University of Michigan and MPH from UCLA. I spent my career focusing on access to health care for children.

**Q: Why are you running for RTM?**

I care deeply about the quality of life for Greenwich residents. I am committed to ensuring high quality public schools, school facilities and athletic fields. My family frequently enjoys the use of our local Civic Center, parks, and beaches. As a homeowner I share concerns about flooding, sidewalk and road repair, balancing traffic flow with safety, encouraging local business, and being a good neighbor. As a resident of Old Greenwich, I would like to maintain the character of our village. We get so much out of living in Old Greenwich and I enjoy giving back by serving on the RTM.

**Q: What are the three most important issues facing Greenwich voters today?**

This election is about preserving what is special about Greenwich and investing smartly for the future of our community, including needed improvements to our infrastructure. The most important issues facing our community are: serving everyone's needs with limited resources, balancing development with town character and safety while preserving our natural environment and green spaces, and ensuring our public schools, facilities and athletic fields continue to make Greenwich a community that attracts young families. I would be honored to continue representing those interests and being a voice for Old Greenwich on the RTM.
