

RTM Finance Committee – Debt Policy Working Group

presents:

**Greenwich Debt Policy:
Background and Issues Educational Session**

Town Hall Meeting Room

Wednesday, May 1, 2019

7:00-9:00 PM

All RTM members and guests are invited

In-depth Information and Analysis on:

- Greenwich Aaa Credit Rating
- Current Debt Policy
- Three dials: Spending, Taxes and Borrowing
- Impact of Proposed BOE Master Plan
- Debt Maturity Analysis

The RTM Finance Committee’s responsibilities include advising the RTM on the financial impact on the tax levy of changes and additions to the capital plan. The information and analysis which will be provided during this meeting is based on the report prepared for the Finance Committee by members of a Debt Policy Working Group to assist the Finance Committee in its evaluation of current and alternative debt policies and proposed increases in capital spending, available on the Finance Committee Website at: <https://www.greenwichct.gov/Calendar.aspx?EID=761>

Working Group members exchanged ideas and worked with the BET’s subcommittee which reviewed Debt Policy over the past several months, and with Town financial officials.

The report and this background and issues educational session will assist RTM members and interested citizens in understanding and thinking about the role of debt in our Town’s capital plans.

While the Finance Committee members have had the opportunity to review and comment on the Working Group’s report, it does not represent an official “position” of the RTM Finance Committee.

Rob Perelli-Minetti, Chair, RTM Finance Committee
